Chapter 1. Sum Up

Chapter 2. Subtract

What is subtraction of integers?

To successfully perform the task of subtracting numbers, you must know what subtraction is. The term "subtraction" represents a mathematical operation. Subtraction is a process, an action that you do perform using numbers. Subtraction allows you find the difference of 2 numbers.

You use the minu (-) button to express the subtraction operation in the app.

In the subtraction process, you take a number and reduce it to a smaller number. That is, we take away one number from another.

How to subtract intergers

Here you will find instructions about using the subtraction feature of JPS Calculator app.

1. Enter the first number.
2. Choose the minus (-) button.
3. Enter the second number.
4. Choose the equal (=) button.

The result from the subtraction is displayed.

Example: You want to subtract 2 from 3. the eqasion will look like $3 - 2 = 1$. You enter 3. Press minus. Enter 2. Press equals.

The result 1 appears on the screen.
